Aquatic Invasive Species (AIS) in Commerce Virtual Summit

Developing Strategies to Mitigate Risk | July 25, 2023 | 11am-2pm Pacific Time

Goal: Convene diverse partners and stakeholders to review and finalize key terminology, review case studies associated with regulatory issues associated with AIS in Commerce and review draft AIS in Commerce Action Plan that includes strategies and actions to minimize the risks posed by aquatic plants and animals in commerce.

Objective: Share progress and receive feedback on draft action plan, identify remaining gaps, and explore case studies.

11:00am-11:10am Welcome/Introductions/Summit Overview and Goals/Progress to Date/Review of Timeline 11:10am-Noon Case Studies: Regulatory Issues Associated with AIS in Commerce Stephanie Otts, Director, National Sea Grant Law Center Red-eared slider (Trachemys scripta elegans) Marbled crayfish (Procambarus virginialis) Water hyacinth (Eichbornia crassipes) State Lists of Restricted/Prohibited Species Noon-12:15pm The Governance and Biosecurity Framework of AIS in Commerce Potential core elements of a Governance and Biosecurity Framework for AIS in Commerce will be presented, and attendees will contribute to the development of that framework. 12:15pm-12:30pm BREAK 12:30pm-1:30pm AIS in Commerce Action Plan Goal: Review draft strategies, compare them to the components of a Biosecurity Framework and identify any key remaining gaps/strategies based on the framework. Voluntary Industry Practices Legal Authorities Accessible Information Record Requirements Resources and Capacity
